## Difficulty: $\bigstar \bigstar \bigstar \bigstar$

## **Diagonal Slitherlink - Challenging Puzzle #2**

## **Rules:**

- 1. Draw a single loop which does not cross itself or branch.
- 2. The path of the loop may go along the edges or diagonal lines of the boxes.
- 3. The boxes with numbers indicate how many lines (including diagonals) of that box must be used by the path.
- 4. The puzzle has a unique solution.

## Solution:
